## Experience

**PROVIDUSBANK | APPLICATION SUPPORT OFFICER**

*OCTOBER 2023 – JANUARY 2026*

- Managed Level 2 technical support tickets via Kace Helpdesk, resolving 30+ daily incidents within strict SLA deadlines to minimize user downtime.
- Developed 10+ Standard Operating Procedures (SOPs) and system guides for common incidents, reducing issue resolution times across the support team.
- Evaluated and tested enterprise system upgrades and technology rollouts, ensuring zero unexpected service disruptions during deployments.
- Monitored the IT shared mailbox to ensure all problems are resolved in a timely fashion
- Got *promoted to Executive assistant* due to good work performance.
- System and service Monitoring: Provided night-shift support to monitor critical IT services(using dynatrace,foglight and other monitoring tools) and finalize daily transactions to prepare the bank system for the next working day (EOD process).
- Maintained 99.9% application uptime across multi-node Rypam load balancers through continuous monitoring and preventative maintenance.

- **Upgrade and Maintenance:** Spearheaded patch updates and documentations which enabled accurate version control tracking.
- Set up and document weekly meetings to discuss outstanding issues and weekly deliverables.
- Executed targeted SQL queries and database scripts to investigate data anomalies and resolve core banking application incidents.

#### **AUDIT AND ASSURANCE OFFICER (NYSC CONTRACT) | PRICEWATERHOUSE COOPERS**

*JANUARY 2022 - NOVEMBER 2022*

- Conducted detailed report casting and audit verifications, ensuring 100% data consistency for executive client presentations.
- **Data validation:** Carried out stock counts of inventory on client sites which ensured reconciliation of physical inventory with documented records.
- Performed substantive invoice testing and data validation for enterprise clients, increasing audit report accuracy by 60%.
- **Basic accounting:** Assigned with the comprehensive review of the Plant, property and equipment audit of a Major Client which helped reduce the timeline for the audit.

#### **IT SUPPORT INTERN | BABALAKIN&Co.**

*NOVEMBER 2020 – JANUARY 2021*

- Deployed an access control system to encourage contactless sign-on during Covid
- **Basic Network Troubleshooting:** Diagnosed and resolved network connectivity issues.
- **Onboarding Users:** Provisioned, configured, and onboarded new hires to Microsoft 365, ensuring seamless user administration and workspace setup.
- **Branding and design:** Designed an email signature and letterhead for the company which aided email marketing campaign efforts and brand awareness.

#### **APPLICATION SUPPORT INTERN | AXA MANSARD**

*MARCH 2020– AUGUST 2020*

- Executed ad-hoc SQL queries to analyze application data.
- Organized and maintained technical documentation repositories for the Enterprise Application & Development department to streamline team knowledge sharing.

#### **IT INTERN | ATB TECH**

*MAY 2018 – JULY 2018*

- **Web design and development:** Designing and developing the image/video components on the Rideme application
- **On-site issue resolution:** Resolved issues with the business management system on client site
- **Basic network troubleshooting:** Diagnosed and resolved network router connectivity issues.
- **Manual testing and documentation:** Testing and documentation of user experience of Rideme car hailing service application.
